## SUMMARY

Full-Stack Developer with 6 years of experience shipping production-ready applications and scalable e-commerce platforms. A Vue.js and Node.js specialist with a proven ability to architect robust backends, build developer-friendly APIs, and take full ownership of products from concept to deployment.

## PROFESSIONAL EXPERIENCE

**Full-Stack Developer | Leaders.org (formerly C-Suite Circle)**
*Aug 2020 – Present | Remote*

**E-commerce Admin Tool Development (Kaizen Shop)**

- Engineered and developed advanced features for the internal admin dashboard of a mobile accessory e-commerce platform.

- Built a dynamic and performant transaction management table using Vue.js, enabling complex sorting, filtering, and data export functionalities.

**Social Media Platform Development (CloutHub)**

- Architected and developed core features for a social media platform serving a large-scale user base using Vue.js and GraphQL.

- Built scalable profile management, homepage, and content feed systems handling high-traffic loads.

- Implemented real-time data synchronization using GraphQL subscriptions and optimized API performance.

**Cloud Integration & Automation Platform**

- Engineered an automated deployment system integrating GitHub/Bitbucket webhooks with AWS S3.

- Developed a static site generator with a repository selection, automatic builds, and a deployment pipeline.

- Created a PostgreSQL-based system for efficient repository metadata storage and retrieval.

**AI Actions Platform & API Development**

- Designed and implemented a microservices architecture for AI-powered actions including document processing, media manipulation, and content analysis

- Built RESTful APIs with comprehensive documentation using OpenAPI specifications.

- Developed automated system to generate and publish API documentation as a Nuxt.js blog from OpenAPI specs.

**Additional Technical Achievements at Leaders.org (formerly C-Suite Circle)**

- Contributed to a company-wide UI component library using Storybook to ensure design consistency across projects.

---

**Frontend Developer | Instoried**
*Sep 2019 – Aug 2020 | Bangalore, India*

- Developed data visualization dashboards using Chart.js with real-time analytics.

- Built a Chrome extension for sentiment analysis with seamless web app integration.

- Implemented secure user authentication and authorization systems.

---

# FREELANCE E-COMMERCE PROJECTS

*Independently developed and launched two production e-commerce platforms as sole developer, managing full project lifecycle from architecture to deployment.*

- **Platforms:** crybabyst4re.com, tharustore.com (serving thousands of daily users).

- **Security & Infrastructure**: Implemented Cloudflare DDoS protection with custom security rules and reCAPTCHA integration to ensure platform reliability and prevent fraudulent activities.

- **Payment Integration:** Integrated multiple payment gateways with secure transaction handling, QR code payments, and fallback mechanisms.

- **API Development:** Created RESTful reseller APIs to enable third-party integrations and expand business reach.

- **Automated Ordering:** Developed a WhatsApp chatbot to process orders via command-based inputs, enabling real-time, automated in-game currency top-ups.

- **Admin & Support Features:** Built comprehensive admin dashboards for transaction management, user analytics, and integrated a live chat system to improve customer support.

- **Secure Authentication**: Engineered a dual-channel user authentication system using OTP verification for both phone numbers and email, streamlining secure account onboarding.

- **Wallet System:** Implemented a user wallet system with top-up functionality and multi-gateway payment processing.

## TECHNICAL SKILLS

- **Frontend:** Vue.js (Vue 2/3), Vuex, Vue Router, Nuxt.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

- **Backend:** Node.js, Express.js, RESTful APIs, GraphQL, Webhook Development

- **Databases:** PostgreSQL, MongoDB, MySQL

- **API & Integrations:** Third-party API Integration, OAuth, Payment Gateways, API Documentation (OpenAPI)

- **Tools & Platforms:** Git, GitHub/Bitbucket Integration, AWS S3, Cloudflare, Docker, Postman

## EDUCATION

**B.Tech in Computer Science and Engineering**
Assam University | 2015 – 2019 | Silchar, India

## CERTIFICATIONS

- FinOps Certified Practitioner - FinOps Foundation
